22 HP (670cc) V- Twin Horizontal Shaft Gas Engine EPA

Horsepower (hp) is a unit of measurement of power, or the rate at which work is done, usually in reference to the output of engines

Online Library 20 Horsepower Engine

or motors. There are many different standards and types of horsepower. Two common definitions used today are the mechanical horsepower (or imperial horsepower), which is about 745.7 watts, and the metric horsepower, which is approximately 735.5 watts.

Kohler has tested and approved the use of 20W-50 oil in its Command PRO 999cc engines. It has been determined that oil consumption can be reduced by as much as 30% by switching from 10W30 to 20W50. 20W50 is now the recommended oil for most operating temperatures of the Command PRO 999cc engine.
