### All About Koalas Level I

Koalas are not bears—they're marsupials. Learn about koalas' unique traits, including six opposable "thumbs," downward-facing pouches, and a tendency to sleep nearly all day in tree branches.

### Koala, facts and photos - National Geographic

Koalas are marsupials, related to kangaroos. Most marsupials have pouches where the tiny newborns develop. A koala mother usually gives birth to one joey at a time. A newborn koala is only the size of a jelly bean. Called a joey, the baby is blind, naked, and earless. As soon as it's born, this tiny creature makes its way from the birth canal to its mother's pouch.
