747 - 400 Flight Crew Training Manual

Manual. The following "Quick Look" views are recommended for the B737-800, in a situation where the pilot is not using a Virtual Reality (VR) headset, or a head tracking device. To some degree, these correspond (on the keyboard Number Pad) with their physical locations in the cockpit, and are therefore logical and easy to recall later.

JARDesign Support

Great model! Very desired 700-ku for X-Plane 11. The model listens very well to the wheel, to land in manual mode is a pleasure. Well-designed system, a large set of dataref and commands to configure management. Works stable and without crashes. For more than 100 flights on this model and no emissions from the simulator.
