Specifically designed for young readers, Boys, Girls & Body Science walks children through the wonders of their bodies in a direct, easy-to-read manner. The story begins with Nicholas, 7, and Jenny, 5, learning about different types of science in their class - from ecology to the digestive system. Then Meg Hickling, a guest speaker, comes to talk to them about a new type of science.

Harbour Publishing: Boys, Girls & Body Science

Boys and girls learn differently for a very simple biological reason - their brains are built differently. Given, their differences, boys and girls perform better provided different stimuli. Our current education system denies this fact and therefore denies the everyday results of these biological differences. Here's a brief list of these biological differences and some of the physiological ramifications:

Brain Science And The Difference Between Boys And Girls
