Before asking for repair help, however, I have one more idea: Pick up your TV's remote, hit the Input button and look at the picture when you switch to each Input setting (HDMI 1, HDMI 2, etc.). It's possible that you have the TV set on the wrong Input setting so look at the picture when you switch from setting to setting.

The television was invented in the early 20th century as a novel way to transmit moving pictures through radio waves. Early television sets actually used mechanical means to etch out a picture from a signal using a Nipkow Disk, with the first demonstration taking place in Paris in 1909. This early "television" technology was capable of transmitting an 8x8 pixel image, with the first ...
