The MPD is the source document for the initial maintenance program. The Maintenance Planning Document (MPD) contains all the Maintenance Review Board (MRB) requirements, as contained in the Maintenance Review Board Report (MRBR) together with all additional mandatory scheduled maintenance requirements. Whilst the MPD is the document required for the initial aircraft operator's maintenance program it is by no means mandatory to comply in every case with subsequent changes to the MRBR.

Where Does the Maintenance Planning Document (MPD) Come ...

Maintenance planning documents (MPDs) are provided by aircraftmanufacturers to describe the repetitive tasks that are required to maintain their aircraft. Maintenance planning engineers use the MPD information to develop operator maintenance programs (OMPs) that are then submitted to the relevant aviation authority for approval.

Aviation Archives: Douglas DC-8 Flight Operating Manual ...

The Douglas DC-8 (sometimes McDonnell Douglas DC-8) is a narrow-body airliner built by the American Douglas Aircraft Company. After losing the May 1954 USAF tanker requirement to the Boeing KC-135, Douglas announced in July 1955 its derived jetliner project. In October 1955, Pan Am made the first order along with the competing Boeing 707, and many other airlines followed.

Douglas DC-8 - Wikipedia

Boeing 737 series. This 737 NG aircraft has a Maintenance Planning Data (MPD) document that is based on the Maintenance Steering Group (MSG)-3 philosophy. This is a task-based maintenance philosophy that looks at maintenance more at a task-level, as compared to previous philosophies, which were more focused on maintenance processes.

Maintenance Planning Optimisation for the Boeing 737 Next ...

In fact, the MPD (Maintenance Planning Document) is a task-driven document providing the information needed to define the aircraft maintenance program. It is "task-driven" because it refers to the each known maintenance task, identified by its Manual and the ATA Chapters.
