This is the NWS Tulsa Decision Support Page. It provides quick, easy access and highlights forecasts of hazardous weather during the next 7 days.

**Decision Support Page - National Weather Service**  
A decision support system is an information system that supports business or organizational decision-making activities. DSSs serve the management, operations and planning levels of an organization and help people make decisions about problems that may be rapidly changing and not easily specified in advance—i.e. unstructured and semi-structured decision problems. Decision support systems can be either fully computerized or human-powered, or a combination of both. While academics have ...
