Economic, social and cultural rights are part of the body of human rights law that developed in the aftermath of World War II. Human rights law includes all economic and social rights, as well as civil and political rights like the right to free speech and the right to a fair trial. These rights are deeply intertwined: for example, the right to speak freely means little without a basic education, the right to vote means little if you are suffering from starvation.

What are Economic, Social and Cultural rights? | CESR

The pandemic has affected educational systems worldwide, leading to the widespread closures of schools and universities. According to data released by UNESCO on 25 March, school and university closures due to COVID-19 were implemented nationwide in 165 countries. Including localized closures, this affects over 1.5 billion students worldwide, accounting for 87% of enrolled learners.
