Most democratic countries in the world are governed by a federal system, including Canada, the U.S., Australia, India and Argentina. Even the EU is a federal system, although one of the very few examples where the members of the "upper houses" in the federation are not appointed or elected, but are delegates of the respective governments.

What is Federalism? - History

In United States history, four periods of widespread Constitutional criticism have been characterized by the idea that specific political powers belong to state governments and not to the federal government—a doctrine commonly known as states rights. At each stage, states' rights advocates failed to develop a preponderance in public opinion ...

History of the United States Constitution - Wikipedia

Federalism is the theory or advocacy of federal principles for dividing powers between member units and common institutions. Unlike in a unitary state, sovereignty in federal political orders is non-centralized, often constitutionally, between at least two levels so that units at each level have final authority and can be self governing in some issue area.

Federalism (Stanford Encyclopedia of Philosophy)

A federal country or system of government is one in which the different states or provinces of the country have important powers to make their own laws and decisions. Five of the six provinces are to become autonomous regions in a new federal system of government. Federal also means belonging or ...
