Let me propose to you four interesting statements about the future:. 1. As I argue in this video, chemical brain preservation is a technology that may soon be validated to inexpensively preserve the key features of our memories and identity at our biological death. 2. If either chemical or cryogenic brain preservation can be validated to reliably store retrievable and useful individual mental ...

Image inspired by the Cyrus Borg_A minifig Scammers pretending to be from Dell computers phoned me in November — but these scammers knew things about me. They identified the model number for both my Dell computers, and knew every problem that I'd ever called Dell about. None of this information was ever posted online, so it's not available anywhere except Dell's own customer service records.
