1.0 Project Overview 1.1 What is REST API? To define "REST API", we have to know what is "REST" and what is "API" first. I'll do my best to explain it in simple terms because REST has a lot of concepts inside of it that could mean a lot of things.. REST stands for "REpresentational State Transfer". It is a concept or architecture for managing information over the internet.

### How To Create A Simple REST API in PHP - Step By Step Guide!
