Learning Styles and Their Effect on Student Learning

A learning style is a term used to describe the ways in which people gather, interpret, and store information. Each style can be broken down into a category based on sensory needs: auditory, visual, and tactile. The presumption is that you will best retain the information presented to you if the conditions of your learning style meet.

Learning Styles Essay | Bartleby

Based on some assessment of their presumed learning style, learners would be allocated to two or more groups (e.g., visual, auditory and kinesthetic learners). Learners within each of the learning-style groups would be randomly allocated to at least two different methods of instruction (e.g., visual and auditory based approaches).
