Ed's ...

Standard storage methods have been developed for hemp grain, seed and fiber, based on years of growing and processing, mostly in Canada. Still, those methods are subject to change—particularly now that the plant is legal in the United States and more farmers will likely grow it.

Hemp processing and storage techniques that are essential ...

Seed processing was not a new field in 1954. It had long been an important segment of the commercial seed industry. What was new was a developing interest and competence in the field by agronomists and agricultural engineers at one of the Land Grant Universities. Before 1950, seed processing was largely a skilled craft passed
