The Black Death 1348 1350

The Black Death is the name given to a deadly plague (often called bubonic plague, but is more likely to be pneumonic plague) which was rampant during the Fourteenth Century. It was believed to have arrived from Asia in late 1348 and caused more than one epidemic in that century - though its impact on English society from 1348 to 1350 was terrible.

The Black Death: The Great Mortality of 1348-1350: A Brief ...

The Black Death was a bubonic plague pandemic, which reached England in June 1348. It was the first and most severe manifestation of the Second Pandemic, caused by *Yersinia pestis* bacteria. The term Black Death was not used until the late 17th century. Originating in Asia, it spread west along the trade routes across Europe and arrived on the British Isles from the English province of Gascony. The plague was spread by flea-infected rats, as well as individuals who had been infected on the continent.

Black Death in England - Wikipedia

The Black Death in England 1348-1350 BY DAVID ROSS, EDITOR In 1347 a Genoese ship from Caffa, on the Black Sea, came ashore at Messina, Sicily. The crew of the ship, what few were left alive, carried with them a deadly cargo, a disease so virulent that it could kill in a matter of hours.

The Black Death: The Great Mortality of 1348-1350: A Brief ...

Scholars have recently questioned the role of the lower classes in the persecution of Jews at the advance of the Black Death in Germany 1348-50. However, a careful examination of the many primary sources relating to the persecution of Jews clearly reveals that the lower classes were heavily involved in these pogroms.
